Git/Github	Active Learner	<1 year

## Education and Training

---

### Testing

#### Warmshower.org Intern

This internship focused on tasks necessary to help a large, open-source nonprofit web community prepare for upgrade to the newest version of Drupal. Primary tasks involved creating a comprehensive set of user stories for the project using Gherkin, communicating with team and community members through Github

and Slack, and preparation for manual and automated testing using Behat.

## **Javascript**

### **DaVinci Coders - Louisville, CO**

This intensive, bootcamp-style course provides students with front end development skills in Javascript. Topics include text manipulation, page layouts, grouping and nesting, as well as JQuery effects such as drop-down menus, slideshows and transitions.

## **Mathematics Education**

### **University of Colorado Denver - Denver, CO**

Study of the conceptual and developmental basis for effective mathematics instruction based on current research in the field, as well as practical work in designing, implementing, and evaluating instruction and curriculum.

## **Liberal Arts**

### **St John's College - Santa Fe, NM**

The undergraduate liberal arts program is routinely selected as one of the most rigorous college experiences in the US because of its intense Great Books curriculum and seminar-based teaching style. Curriculum consists of discussion of primary source works from the Western canon of philosophical, religious, historical, mathematical, scientific, and literary works and is considered to be equivalent to a double major in mathematics and philosophy with a triple minor in ancient language, classic literature, and music. The discussion based learning environment fosters deep and effective communication skills for listening, effective questioning, and collaboration.

## **Accomplishments**

---

### **Culture Hero**

#### **AXL Academy - Aurora CO**

Redeveloped the special education department and programming, creating and maintaining systems to ensure high quality outcomes, excellent communication between stakeholders, digital, cloud-based records for ongoing access, and legal compliance. Collaboration with district representatives, itinerant team members, and non-special education staff as well as training and mentoring other members of the special education and intervention teams and working intensively with families. Problem solving with a variety of stakeholders in routine and crisis situations.
